

## Entertainment and Events

# Waterfront - Info Sheet

Looking for a well delivered, high energy set with the perfect mix of chart songs and dance floor classics, then we are the band for you!  
 Waterfront has established themselves as one of the top wedding, function and party bands in the UK. We have performed to packed dance floors all over the country from Glasgow, Edinburgh, Aberdeen and Manchester. Established in 1999 we have gained the tools to cater for all occasions. Weddings, charity balls, corporate functions, private parties and festivals.

We are fully self-contained and provide anything from a small vocal PA up to any large concert sized system and include our own fully programmed lighting. Full AV packages are also available on request.

For Weddings the choice of the first dance is left to the bride and groom though we are happy to offer any advice on this choice.

The band is completely live and has a full time sound engineer.
